The Business owner side

Calendar view a embedding of his google calendar

The business owner should be able to cancel a meeting and automatically notify the client

The image displays two screenshots of a mobile application interface, likely for a business owner, showing a calendar and a detailed view of a day's schedule.

Left Screenshot: Calendar View

The top part shows a monthly calendar for October 2024. The days of the week are labeled S, M, T, W, T, F, S. The dates 1 through 31 are listed. The 5th of October is highlighted with a purple circle. Below the calendar, the date "October 15, 2024" is selected, and a detailed timeline view is shown for that day.

Right Screenshot: Detailed Schedule View

The top part shows a monthly calendar for October 2024. The days of the week are labeled S, M, T, W, T, F, S. The dates 1 through 31 are listed. The 5th of October is highlighted with a purple circle. Below the calendar, the date "October 15, 2024" is selected, and a detailed timeline view is shown for that day.

Timeline View (Left Screenshot)

The timeline for October 15, 2024, shows the following events:

- 12 PM: Marina - Hair color (12 - 1pm)
- 1 PM: Lior - Haircut, 1pm
- 3 PM: Lili - Haircut, 3pm

Timeline View (Right Screenshot)

The timeline for October 15, 2024, shows the following events:

- 10:00 AM - 11:00 AM: Available (represented by a plus sign)
- 11:00 AM - 12:00 PM: Accepted (represented by a checkmark)
- 12:00 PM - 1:00 PM: Available (represented by a plus sign)
- 1:00 PM - 2:00 PM: Accepted (represented by a checkmark)
- 2:00 PM - 3:00 PM: Available (represented by a plus sign)
- 3:00 PM - 4:00 PM: Accepted (represented by a checkmark)

Bottom Navigation Bar

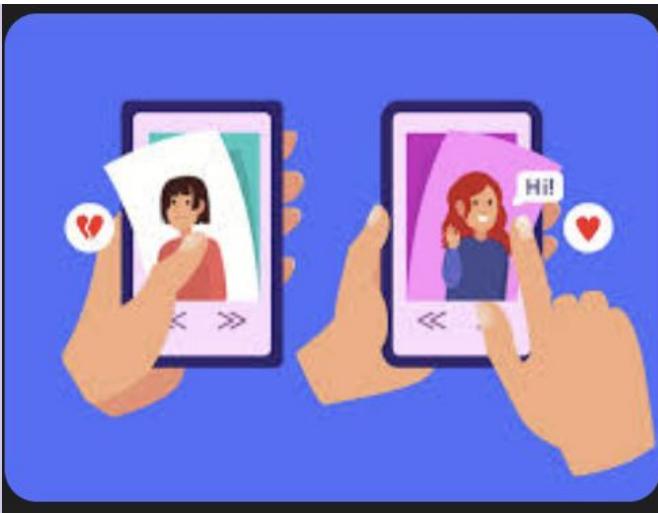

Both screenshots feature a bottom navigation bar with icons for Home, Inbox, Post, Calendar, and Profile.

“Booking Now” approval

Notification: Receive alerts for new booking requests push notifications.

Actions:

- **Approve:** Confirms the booking, triggering an API call to book the appointment on the business owner’s Google Calendar. The customer is notified of the approval.
- **Reject:** Declines the booking, notifying the customer (with an optional reason).

The Business side

Comments:

1. Localization (starting with hebrew?)

Integrations

- Google Maps: Validates addresses and calculates distances for sorting in the "Pick a Place" option.
- Google Calendar API read/write/delete:
 - Manages and syncs booking schedules, defaulting to the earliest available time slot on the relevant date.
 - Upon business owner approval, an API call books the appointment directly on the business owner's Google Calendar.
 - Embedding the calendar for business owner view
- Notification System: Push notifications for real-time communication.
