YANGON, MYANMAR

Noatex Myanmar (NSM)
Sewn Products - May 2017

Total production area = 15,000sqm
Total employees = 720

Wise Pearl Myanmar (WPM)
Sewn Products - Dec 2015

Total production area = 11,000sqm
Total employees = 320

GUANGXI, CHINA

GSL | Sewn Products, Lingshan - May 2012

Total production area = 10,000sqm
Total employees = 300

SHENZHEN, CHINA

Starry (SBL) Sewn and Medical
Products - Mar 2003

Total production area = 18,000sqm
Total employees = 600

DONGGUAN, CHINA

Tetro (TDL) Plastic, Metal, Textile of
Consumer Products - Jan 2007

Total production area = 48,000sqm
Total employees = 850

Tetro (TML) Metal, Aluminum of
Consumer Products - Feb 2013

Total production area = 15,300sqm
Total employees = 260

Olitex (OLL) Sewn Products - May 2011

Total production area = 26,000sqm
Total employees = 550

Neostar (XLL) Sewn Products - Jan 2011

Total production area = 15,000sqm
Total employees = 270

HO CHI MINH, VIETNAM

Starry Vietnam (SVL)

Q4 2024 | Textile, assembly of Consumer Products

Total production area = 6,000sqm
Total employees = 120

Q1 2026 | Plastic, Metal, Textile of Consumer Products

Total production area = 70,000sqm
Total employees = 1,500

Textile

A wide-angle, low-perspective shot of a modern textile manufacturing facility. The image shows a long, straight aisle lined with rows of industrial sewing machines and workstations. The machines are light-colored with dark bases. The floor is a smooth, light gray. The ceiling is high with exposed metal beams, pipes, and industrial lighting fixtures. The overall atmosphere is clean, organized, and industrial.

- ✓ Over 3,000 electronic sewing machines
- ✓ Heat-transfer printing
- ✓ High-frequency
- ✓ Ultrasonic welding
- ✓ Thermoforming
- ✓ Hot press molding
- ✓ Laser cutting
- ✓ Embroidery
- ✓ Lamination
- ✓ Bonding technology

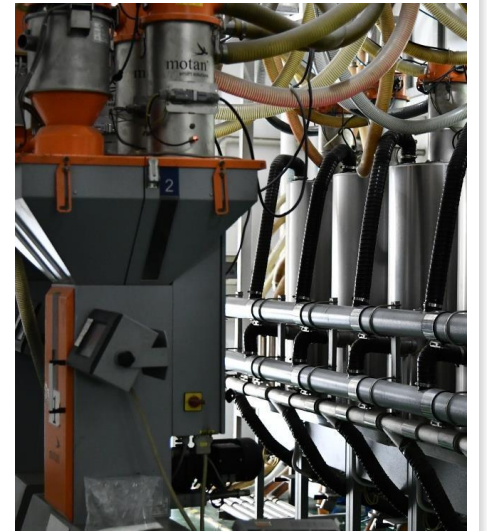

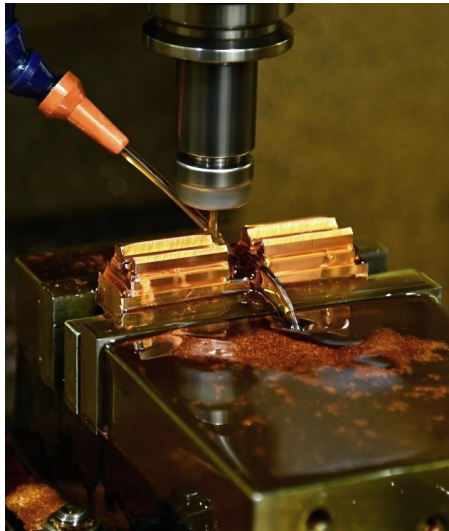

Textile

Plastic

- ✓ 70 injection machines 50 to 1000 tons
- ✓ Central dosing System
- ✓ Double component injection
- ✓ Gas assisted injection
- ✓ In-mold labeling
- ✓ In-house molding + mold planning

Plastic

Metal

- ✓ Aluminum Extrusion
- ✓ Aluminum Extrusion Anodizing
- ✓ CNC lathe machining
- ✓ Robotic welding
- ✓ Robotic bending
- ✓ Aluminum Heat treatment
- ✓ Chemical Polish
- ✓ Sand blasting

Metal

Electronics

✓ **BT modules based**

- Provides reduced certification cost
- Relatively short time to market
- Competitive product price

✓ **Dialog and Nordic BT ICs based**

- Provides wide features list for advanced solutions
- Costly

✓ **Custom BT single IC solution based**

- Proven experience on local market
- Short development time
- Unmatched quality-price ratio

Engineering

A photograph of two male engineers in a workshop. The engineer in the foreground is wearing glasses and a dark jacket, focused on assembling or repairing a circuit board. He is using a small tool. The engineer in the background is also wearing glasses and a dark jacket, working on another circuit board. The workshop is filled with various electronic components, tools, and equipment. The lighting is warm and focused on the work area.

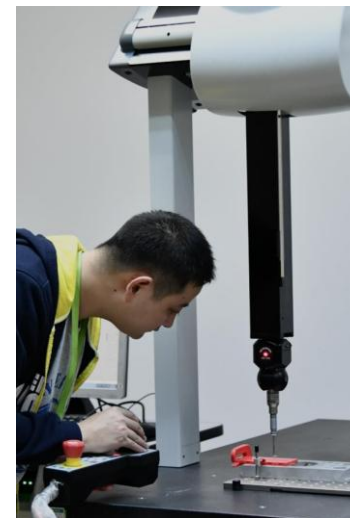

- ✓ Over 200 in-house engineers.
- ✓ Strong team of in-house firmware and hardware electronic engineers.
- ✓ Soft goods engineering capabilities to facilitate development from sketch to perfected product.
- ✓ Mechanical and mold engineering from mechanical design to DFM optimization.
- ✓ Our workshop is equipped with necessary software and 3D printers for rapid prototyping.

Laboratory

A close-up, low-angle shot of a baby stroller's front end, specifically the wheels and suspension system, mounted on a complex industrial testing machine. The machine features a large, dark, curved frame and several blue straps. The stroller is positioned on a green, reflective surface. The background is slightly blurred, showing more of the machine's structure.

- ✓ Heavy metal detection system
- ✓ Impact tester
- ✓ Sound levels tester
- ✓ UV test machine
- ✓ Environmental test machine
- ✓ Tensile strength testers
- ✓ Aging test
- ✓ MFI analyzer
- ✓ Salt spray
